**ULTRA DESIGN STUDIO**  
see how the pros design for you

The love affair with ornamental fencing began hundreds of years before the company, Ultra Aluminum™, was started. Metal fence was beautiful and majestic, but made from a material that was destined to rust and crumble — iron. As good as the coatings technologies evolved through the ages, nothing could protect that fragile metal from deteriorating.

Ultra Aluminum™ ornamental fencing retains that impressive look of wrought iron, but is designed to withstand the tortures of weather, pollution, chemicals and savage environments. Ultra started with humble beginnings in 1996 and a desire to replicate the intricate details of historic ornamental iron fences, using materials that are just as strong, but stand up to the variations of weather and climate with long-lasting durability. Traditional or contemporary, elaborate or simple design — Ultra has a high quality, American-made fence to fit the bill.

## Superior Product Design for Ultra-Strength

**High-strength Ultrum™ Alloy, Made in the USA. It's as strong as steel, but will never rust. Ultrum is a 6005 alloy, with a minimum ultimate strength of 35,000 psi.**

**All gates are fastened with stainless-steel fasteners and 100% welded at all connections and joints designed to stand up to the rigors of everyday use.**

**Ultra Signature™ Railing has an innovative designs with multiple grades of pickets and posts for every performance level. We have a comprehensive line of code-compliant railing available in pre-built or easy to assemble sections.**

**Finials, butterflies, scrolls and circles take your fencing to a new level — heavy-duty cast accessories for truly distinct designs. For structural integrity and strength you can count on.**

## What are the benefits of Ultra Aluminum™ ornamental fencing?

Ultra Aluminum™ ornamental fences add elegance, sophistication and style to any setting. They're available in a range of colors—Black, Textured Black, Bronze, Textured Bronze, Beige, Textured Khaki, White, Textured White, Silver and Green. Standard finishes are smooth and shiny, and our Textured finish imparts a matte texture. And, we can customize a paint finish to match your home's design, siding, accessories or landscaping. Customization is a big asset when purchasing an aluminum ornamental fence. You can add mid-rails, circles, scrolls, and finials. Circles, butterflies and scrolls are installed between rails, while finials dress up the tops of pickets. Pickets above the top rail can be straight, staggered, concave or convex. With slight modification, they can also provide trusted security. You can add stronger, larger and taller pickets, and reinforced rails. Traditional gate latches and locks can be specified, for added protection.

# ornamental fencing

The clean lines of the UAS 100 fence go well with the architecture of this modern home.

**Available in:** Residential Series, Residential Series Premium, Commercial Series and Commercial Series Premium

**Ultra's Premium Grades** have a reinforced double-wall rail with hidden fasteners.

**Standard Sections** are 6' wide x 3', 3'-1/2", 4', 4'-1/2", 5' or 6' high. Sections come fully assembled. Custom width or height sections are available.

**Pickets:** Residential 5/8" square x .050; Commercial 5/8" square x .055

**Spacing between Pickets:** Residential standard 3-13/16" and optional 1-5/8"; Commercial standard 3-5/8" and optional 1-1/2"

**Fasteners:** Stainless Steel

**Horizontal Rails:** Residential 1-1/8" x 1" with .080" side walls and .062" top walls; Commercial 1-1/4" x 1-3/8" with .088" side walls and .065" top walls

How do Ultra Aluminum™ fence and railing products compare to similar steel or wrought iron products?

The biggest advantage to an Ultra Aluminum™ product is its maintenance-free characteristics. Unlike steel or wrought iron, our products won't rust, and our Powercoat™ finish is guaranteed for life. And strength is never compromised with an Ultra product. Its high-strength Ultrum™ Alloy is as strong as steel and has been tested to withstand hurricane wind gusts up to 259 mph.

**From Left to Right:** The Circles on this Bronze UAF 200 add a decorative touch, and the shade complements the home's color scheme; Tri-Finials and Decorative Circles on this UAS 100 Estate Gate welcome you to this impressive manor; Spear top UAS 100 ornamental fence encloses these charming Antebellum homes.

## Aluminum Swimming Pool Fences

Fencing and railing by Ultra Aluminum™ are designed to meet all the stringent BOCA swimming pool safety codes. Several residential picket fence styles and the Eclipse™ Privacy style are specifically designed to comply with BOCA code. The most important compliance factors for ornamental aluminum fence are:

Fence must be at least 48" (4 ft) tall.

The mid-rail must be at least 45" above the bottom rail.

The spacing between pickets must be less than 4".

The space between the bottom rail and the ground must be less than 4".

Gates must be self-closing, self-latching, and open outward (away from the pool area).

The opening mechanism of the latch must be at least 54" above ground.

Always check local code before ordering and installing pool fencing.

*Ultra Aluminum™ assumes no liability for improper installation.*

*Code compliance is the sole responsibility of contractor.*

Eclipse VP™ combines the strength of extruded aluminum top, middle and bottom rails—available in all 9 standard colors and fits any standard 7/8" x 6" T&G vinyl board—with rich variegated color vinyl panel inserts.

Eclipse™ fencing in White is the ideal pool fence for security, protection and privacy.

Ball Caps and distinctive Pressed Spears add elegance to this UAF 250 pool fence.

Handsome UAS 100 with Puppy Pickets and Tri-Finials.

How to tell if you're getting a genuine fence, rail or gate from Ultra Aluminum™?

It's in the details. The inner strength of the aluminum alloys we use. The quiet strength of the extra ribs inside Ultrarails™. The depth and dependability of our Powercoat™ finish. We push everything to the edge.

**From Top to Bottom:** Neither rain nor sleet nor snow will harm the appealing Satin Khaki finish on this UAS 101 fence; Our Powercoat™ finish protects the Bronze color of this UAF 200 from the hot sun; Strong winds and punishing weather won't diminish the strength and beauty of this UAF 200 fence; This UAS 100 Spear-top fence with short pickets endures sun, moisture, and chemicals, and still looks fabulous.

## Changing weather extremes are no match for Ultra Aluminum™

Homeowners want a fence they can rely on, not only for protection, but for good looks year after year. Our fence has been tested to withstand wind gusts of up to 259 mph. And the Powercoat™ finish maintains higher levels of UV protection, so the gorgeous color won't dull or fade due to sun, rain, snow or other environmental factors.

### Colors

The powder-coated finishes available for Ultra Railing, Gates and Accessories are all applied with a exclusive Powercoat™ finish to resist harsh weather and the sun, and meet AAMA 2604 Standards.

# Uniquely You...

decorative accents that show off  
your personal style

Decorative Circles are positioned and then locked between the top two horizontal rails and the vertical pickets of a three-rail fence. Fence sections come factory-assembled with circles, which alters the spacing of the top two horizontal rails, and therefore must be specified when ordering. Circles are individually cast, which provides for a cleaner paint finish.

Butterfly Scrolls can be positioned on the vertical pickets between the top two horizontal rails of a three-rail fence. Fence sections come factory-assembled with Butterfly Scrolls, and can be added to previously built sections.

Large Scrolls are suitable as gate accents or on taller fence panels. Scrolls are notched to fit a specific size of picket. Large Scrolls are sold separately and can be added to any fence style. Scrolls must be specified at the time of purchase. Size: 16" long by 7" wide (nominal).

Decorative Finials can be used in place of pressed spears, for an elegant touch. Ultra offers a Quad-Finial and a Tri-Finial design, both of which come factory installed.

Decorative Ball Caps may be used in place of a standard cap on fence posts.

Solar Light Caps automatically charge during the day and shine at night. For use with 2" and 2 1/2" square posts; in Black only.
